UNITED STATES TROOPS TO CROSS THE BORDER TO SAVE THE CITY OF JUAREZ

Cabinet in Washington Considering the Ad- visability of Performing an Extraordinary Act on Foreign Territory—Mexican Authorities Desire to Send Soldiers Through El Paso to Scene of Armed Conflict

El Paso, Feb. 3.—Ciudad Juarez, Mexico, the city across the international border from El Paso, apparently is at the mercy of the insurgents, who are converging to attack the place, and who are reported to be within eight miles of the city. Notice that they will fire on the city has been served, but, according to their declarations, their messenger was captured and is being held a prisoner. No official notice yet having reached the foreign consuls, and 12 hours will be allowed to elapse before the attack is made.

An unexpected angle was given the situation today by the possible action of the government in considering the advisability of sending American troops into Juarez to protect American interests and prevent the threatened bombardment. Unless reinforcements troops, constituting the garrison of Juarez, this probably would not prevent Juarez falling into the hands of the insurgents, but would prevent fighting within the city.

In this connection, an unconfirmed rumor was current that the Mexican government had asked permission to send reinforcements to Juarez from Sonora, across United States territory, the railways of Mexico being blocked.

Juarez today is a deserted city. Business houses have been closed, and have been the postoffice, banks and race track and hundreds of the inhabitants of Juarez have fled across the international bridge to the protection of the United States territory. A few soldiers and police are at the race track, but otherwise the town is as if a plague had stricken it.

Cabinet Considers Question.
Washington, Feb. 3.—The cabinet is now considering the question of the use of American troops to protect American interests in Juarez. The information that the revolutionists, who are reported to be advancing on the town, were preparing to begin a bombardment at 3 o'clock this afternoon, had led the officials here to consider the propriety of preventing any such bombardment.

It will be necessary to secure the consent of the Mexican government to the crossing of the Rio Grande by American forces and, if this is granted, the activity of the troops would be confined to maintaining order in Juarez, protecting property there, and preventing any fighting within the town limits.

Justification of this movement is found in the action of the navy in the case of Santo Domingo and Honduras, where marines were landed and prevented fighting in towns where there was a number of non-combatants and large foreign interests.

The question of permitting Mexican government troops to be transported across American territory from Sonora to El Paso, to repel the advance of the rebel forces, is entirely distinct from an international law proposition from the first proposition.

El Paso, Tex., Feb. 3.—(5 a. m.)—There are no new reports from Ciudad Juarez at this hour. The city is absolutely quiet and no indication of attack on the part of the insurgents, who are camped a few miles south of the city.

Four of the police force of Juarez deserted to this city. The two banks doing business in Juarez have been moved into El Paso and the postoffice has also been moved over on the Texas side of the river.

midnight when fire broke out in the Crystal Keno gambling house. The El Paso fire department prevented the destruction of the whole city of Juarez.

At 10 o'clock this morning the mayor of Juarez ordered all places of business closed. American and other foreign flags were at once put up by foreign residents.

Races Stopped at Juarez.
Juarez, Mex., Feb. 3.—After United States Consul Edwards, at this place, had advised the managers of the Juarez race track that the city of Juarez

RIGHTS OF A CHINESE BOY

Entire Supreme Court of United States Must Act on Case

Washington, Feb. 3.—Out of the claim of Jemeyuen, a Chinese boy locked up in Boston, has arisen a ticklish question of personal rights that may have with immigration regulations in the United States. Yuen asserts that it is his right to give bail pending action of the supreme court of the United States on the validity of his proposed exclusion from this country. He sought admission as a minor son of Shin Ying Don, whom he declared to be a Chinese merchant residing in Boston. The immigration officials rejected his application and the lower courts declined to release him on habeas corpus proceedings.

The entire supreme court of the United States will be convened on Feb. 20, to decide whether he shall be accorded bail, a preliminary application for which was denied by Justice Holmes.

The intricacy of Jemeyuen's case arises from the fact that such business as he is now suffering from "great impairment of health, recently fainted and had a bad fall, so wounding himself in the fact that three stitches were required to close the wound and is so nervously prostrated that a serious result is threatened and feared."

Appeal to the court was made on the theory that even a person convicted of crime, with sentence suspended by appeal, would be entitled to bail. Justice Holmes took the position that Jemeyuen was not compelled to endure imprisonment and that "he could give up his attempt to enter the country and ask to take ship for other parts."

To this argument, Warren O. Kyle, counsel for the boy, in a brief just presented to the court, has replied.

"But if he is compelled to abandon his case before his rights shall have been determined, because, unable to endure imprisonment, which we do not subject the worst convicts to, while their rights are being determined on appeal, whatever their color, whatever their nationality, whatever their crimes, then both father and son do complain of a denial of justice, and complain of a disregard to treaty obligations by a Christian nation sending its missionaries around the world to preach honesty, not practiced at home."

**HALL OF FAME FOR
THE BALL PLAYERS**
Chicago, Feb. 3.—Tentative plans for the creation of a baseball hall of fame, on broader lines than anything of the kind hitherto attempted, were announced yesterday by a Detroit manufacturer. He offered to put two automobiles into the hands of a committee of five or seven newspapermen to be awarded at the end of each season to the player in each major league, who, in the opinion of the committee, had done the most for his team in the pennant race.

clusive of the managers, whether bench or playing managers.

The idea is to eliminate the question of batting, fielding or pitching averages as arbitrary determining factors and to reward the players who do the most to advance the best interests of their respective teams in the two pennant races.

In addition to taking into consideration the performance of a player in batting, fielding, pitching, base running and other departments, it is intended to include loyalty, deportment and adherence to discipline, both on and off the field.

Being the composite opinion of a committee of newspapermen and not based on records, the choice would carry with it no official recognition. The winners would be in the position of football players chosen annually by Walter Camp for his all-American eleven, except that there would be two prize winners instead of eleven, and the choice would represent the personal opinions of five or seven men instead of an individual.

WORLD'S MARKETS

MARKET HEAVY FOLLOWING
WEAKNESS IN LONDON.

New York, Feb. 3.—Heaviness of Americans in the London market today found some reflection at the opening here when most of the active issues were fractionally under last night's close. United States Steel, on an initial sale of 3,500 shares, yielded 28 and Erie, Chesapeake & Ohio, Reading and St. Paul recorded 1-4. Some advances were registered, however, Pacific Mail gaining a point, Amalgamated Copper 3-4 and Pennsylvania 3-8. Prices moved upward after the opening but, selling on the advance, the market weakened. Reading was sold freely, falling back a point from its best and several other railroad issues were heavy, including Northern Pacific which lost a point. United States Steel sagged under constant pressure. Pacific Mail was offered liberally on the rise and reached 1-1/2.

Surface conditions during the morning reflected further selling of stocks for profits, which diminished buying power, but the undertone was moderately firm. The usual leaders, United States Steel, United Pacific and Reading, were under intermittent pressure. The copper stocks were again strong, despite divergent views on current trade conditions.

Republicans—Dewey eleven.

**SENATE COMMITTEE
POSTPONES ACTION**

Washington, Feb. 3.—Further postponement of action on recognition of

a city or cities that desire to hold some manner of celebration of the opening of the Panama Canal, in 1915, was announced by the senate committee on industrial expositions today. Next Wednesday the committee will again meet and hear a delegation from Baltimore.

It is expected the committee will decide at that meeting whether to recommend that New Orleans or San Francisco be given the indorsement as the exposition city. The House has already voted for St. Louis.

COMPETING FOR PRIZE.

Paris, Feb. 3.—Aviator Say competing for the Aerial League prize for the aviator flying sixty kilometers (3.9 miles) over a circuit course before Feb. 4 today covered 63 kilometers in 32 minutes. He used a bi-plane and flew over the track at Issy LeMoleneux.

BOY WRITES UNCLE SAM

Asks to be Forgiven For Breaking Into a Postoffice

Denver, Feb. 3.—Benjamin Dewey Miller, 11 years old, who is in the county jail here awaiting trial on the charge of robbing the postoffice at Gardner, Colo., has written to President Taft pleading his case. The letter, which is addressed to "Uncle Sam," was mailed to the President last night. It reads:

"Dear Uncle Sam: I am going to tell you about what I did. I broke into your postoffice with two other kids. I know we did wrong. We got \$14 and four or five packages of stamps; that's all.

"My father and mother are poor and ain't got no money. I read Jesse James stories and that's what put me up to it. If you will let me go this time, I won't do it no more. I was in bed when the other kids came and called me. This is all for this time, so goodly. (Signed), Benjamin Dewey Miller."

EXCURSION RATES ON RAILROADS

Chicago, Feb. 3.—Passenger officials of western railroads at the meeting of the Transcontinental Passenger association are expected to decide on passenger excursion rates to the Pacific coast and other western points for the coming summer.

American roads have discontinued making any reduced rates for special convention with two-cent fare states but this does not apply to transcontinental fares.

In addition to summer tourist fares, rates will be determined upon today for different conventions. The principal summer conventions of the Pacific coast for which low rates are to be made are the National Educational association, the American Sunday School association, and the Eagles, all at San Francisco, and the American Medical association at Los Angeles.

For the National Education association it is likely a rate of \$62.50 for the round trip would be made, which is equal to the one fare.

It has been decided to make low colonist rates for the thirty days from March 10 to April 10. Tickets will be sold daily on the basis of \$25 from Chicago, \$32 from St. Louis and \$25 from the cities on the Missouri river, for one way fares, good on all the fast trains.

ELECTION PRACTICES IN DANVILLE COME NEXT

Danville, Feb. 3.—The grand jury will adjourn this afternoon until Monday, when the investigation of election practices in Danville and Vermillion county will again be taken up. Many witnesses are yet to be examined.

ADMIRAL WANTS TO MEET BURGLARS

Yonkers, N. Y., Feb. 3.—The one regret of Rear Admiral James Kane, U. S. N., retired, is that he was not at home here on any of the occasions recently when burglars tried to effect an entrance. Within two weeks he has been the victim of three attempts to break into his bachelor quarters. Two efforts were frustrated because of the efficiency of a peculiarly constructed lock brought from Paris and a third attempt yesterday failed because of the barking of a watchdog.

When he returned from a trip to New York, he found the mark of a jimmy on the door. He has notified the police, but says he would rather meet the would-be burglars face to face. He has a small arsenal in his house, comprising old navy swords and revolvers, and declares he is watching for a chance at the intruders.

BUTTER IS DROPPING

Price in Chicago Has Been Forced Down to 25 Cents

Chicago, Feb. 3.—Three million pounds of butter must be shipped abroad during the next few weeks in order to prevent heavy losses in cold storage holdings, according to commission men.

One dealer, who is credited with holding 70,000 tubs of highest grade butter for which he paid 31 cents a pound, is now selling it at 25 cents a pound.

"Low grade butter is affected much more than the better creamery products," said a well known Chicago commission merchant yesterday. "The great trouble with the butter market is that too high a price is asked for stock not worth it. For five years the commission men have been fighting each other, and now that they have brought about this condition they must take their punishment. The second grade butter generally quoted at 22 cents should sell under normal conditions for not more than 12 cents a pound."

PRESIDENT IS PRAISED

Democratic Congress- man is Unstinted in His Tribute to Taft

New York, Feb. 3.—It is not often that a Democratic congressman devotes the time allotted him for a political address to unstinted praise of a Republican leader. This, however, was the tribute which Congressman-elect Martin W. Littleton paid to President Taft here last night in speaking before the Manufacturers' association of New York. His subject was "The New Statesmanship."

"There are two things the President of the United States has done," said Mr. Littleton, "that will give him a high place in American history. In the first place he had the courage, which no other president that I know of ever had, to appoint an ex-Confederate soldier to the chief seat in the supreme court of the United States."

"He also had the courage to submit the doctrine of reciprocity with Canada a step which may have confounded the counsels of his party. But the American people understand it and they will support him. He has proved that he knew no North or South. East or West, but conceived that our flag represented the entire nation."

HARD BLOW AT LORIMER

Senator Root Declares the Illinois Man Should Be Ousted

Washington, Feb. 3.—That Senator Wm. Lorimer of Illinois holds his seat as a result of bribery, and on that account should not be permitted to continue in the senate, is the conclusion reached by Senator Elihu Root and announced by him in an address here today.

ROOSEVELT AS A NATURALIST

Los Angeles, Feb. 2.—Theodore Roosevelt's visit next month will be made directly upon his work as a naturalist. According to a telegram received yesterday by Dr. J. A. B. Scherer, president of Throop university, the colonel says he will arrive in Pasadena the morning of March 21. In the afternoon he expects to pass some time with John Burroughs and John Muir who both have devoted years to scientific research in the west. In the evening Colonel Roosevelt will deliver an address on "The Zoology of Africa."

**MAN PEDDLING EGGS
IS HELD FOR TRIAL**
Bingham, Feb. 2.—Thomas Hill and Thomas Hurley had their preliminary hearing on a charge of burglary in the second degree today. Hill was discharged, but Hurley was held to the district court and in default of a \$500 bail was committed to jail. The men were charged with burglarizing Schliep's meat market January 24, when thirty dozen eggs and \$2.75 were stolen. Hurley was caught peddling the eggs.

GREZELEY IS CELEBRATING.
Greely, Colo., Feb. 3.—This city, named after Horace Greely and

founded by associates of the famous editor as a practical illustration of his "go west, young man," advice, has suspended business today to observe the one hundredth anniversary of Greeley's birth. In addition to a big public meeting, exercises are being held at the schools. Speeches by a number of the founders of the city, which was first known as the Union colony, were features of the day. The speakers were all friends of Greeley. Greeley is now a city of about 12,000 inhabitants.

MONEY FOR STARVING CHINESE.

San Francisco, Feb. 3.—The Chinese Six companies, a benevolent organization of this city, yesterday sent \$5,000 by cable to the Red Cross society at Shanghai for the relief of the flood sufferers in the province of Anhwei. More money is being collected in Chinatown for the relief of the Chinese.

BRAVEST — GENERAL

Orozco, Winner of Battles, Never Had Military Training

New York, Feb. 3.—Gustav A. Madero, young brother of Francisco Madero, leader of the Mexican revolution, who is now in New York, declares that General Pascual Orozco, who is leading the insurrecto advance on Juarez, is the youngest and bravest general in the Madero forces.

"Since the war began in November," says young Madero, in an interview published today, "General Orozco has been the leader of three of the revolutionists' most spectacular achievements at Guerrero, Cerro Prieto and Mal Paso.

"He is only 25 years old, and never served in the army before, nor ever held any public office. He is the son of a small ranchman outside Chihuahua. Being brought up on his father's ranch, he had no social position in particular, but learned to be able to hit a dime every time with a rifle at 200 yards. When he reached the age of 21, he left his father's ranch and came into Chihuahua and started in business for himself as a commission merchant."

"He never met my brother, but when my brother last summer toured Mexico, making speeches, Orozco became enthusiastic over his idea and has been the official leader of the revolutionary forces of Chihuahua ever since."

ROB THEIR PARENTS AND RUN AWAY FROM HOME

Logan, Feb. 2.—Three youths in an effort to get away from home, attempted to steal money from their parents. Two failed and were brought before Judge Peterson of the juvenile court. One is under suspended sentence to the industrial school and that sentence will be carried out now. The other youth will also be sentenced to the school. The third boy got as far as Lewistown, where he was caught and returned by Officer Andrew King. The three boys are now lodged in jail.

WOMAN IS ARRESTED AS A GRAVE ROBBER

Danville, Ky., Feb. 3.—Mrs. Amanda Harrison, or Mrs. Gilmore, as she was also known, who is charged with being one of the persons who attempted to rob the grave of G. B. Saffley in the Stanford cemetery, last Monday, was arrested in a remote section of this county last night. The warrant for her arrest was sworn to by a brother of Saffley and the search for the woman has been through Boyle, Lincoln, Garrard and Casey counties.

CHANGES TO BE IN THE RULES

New York, Feb. 3.—Football men of prominence from all parts of the country were in New York today for the two days' session of the Intercollegiate Rules committee. A majority of the fourteen members of the committee expressed themselves as convinced that no material changes should be enacted this year, their position being that the present legislation should have another season's test. The host of suggestions for something different which have been flooding the country will be gone over carefully, however.

The Harvard representative is in favor of doing away with the three-minute rest between quarters, taking out only time for the teams to change goals.

Harvard also favors making the halves 35 minutes instead of 30 minutes long, and as the game last year under the new rules was less trying on the players, the suggestion to lengthen the halves may meet with approval.

LAWYERS FOR THE SCHEKNS TO MEET

Wheeling, W. Va., Feb. 3.—Counsel for Mrs. Julia Farnsworth Schenk and her husband, John O. Schenk, the millionaire packer, will hold a joint meeting here late today to take up the matter of alimony and counsel fees for the woman. Mrs. Schenk was charged with poisoning her husband. The jury disagreed.

Schenk will file his suit for divorce Monday and the wife will retaliate with a cross bill.

THE EARTH AND MARS

Are the Only Planets on Which There is Life

New York, Feb. 3.—"Mercury and Venus are already dead and dried up worlds; Mars is rapidly approaching a state of wrinkled old age and the earth is next in the procession headed towards the extinction of all life," according to Dr. Percival Lowell, head of Lowell observatory, who is in New York for a series of lectures before scientific bodies.

"Mars is certainly inhabited by some character of organized life," Dr. Lowell said in his opening lecture, "and the Martians have far greater reason to deny that there is life on the earth than we have that they do not exist.

"But there is no life on any other planets besides the earth and Mars, all other members of the solar system being already dried up, so that animal life cannot exist, or else they are like Jupiter, Saturn, Uranus and Neptune, much too young in world evolution and, therefore, much too hot from interior sources to admit of life of any kind.

On Mars, the clearing of the atmosphere, which has been going on since the Paleozoic era, has reached perfection. Man, indeed, must be the source of constant annoyance to an orderly creator, for he is constantly interfering with the natural course of events. With city chimneys always belching forth smoke and making it rain, man is responsible for more than half the bad weather of which he complains. On Mars, the sky is perpetually clear from morning till night and from spring to fall.

"While the water on the earth is slowly but surely disappearing, through sublimation into the heavens, and sinking into the earth, on Mars the seas have already disappeared though there appears to have been seas there ages ago."

DEAD MEN ARE PAID

Steel Trust Has a Pay- roll of the Living and the Dead

Hammond, Ind., Feb. 3.—Charges that "dead men" were being carried on the payrolls of the United States Steel Corporation and the arrests of Charles Bloomfield, John Caldwell and Walter Thomas, time keepers, are being investigated by the superior court grand jury here. The amount of the alleged peculations, it is said will probably exceed \$10,000.

According to a Gary undertaker, Rade Zegarek is dead and was buried many months before his name was stricken from the payroll of the corporation. It is said this is only one of many cases.

ATTELL EXPECTS TO RE-ENTER THE RING

New York, Feb. 3.—Abe Attell's first meeting after his broken arm heals will be with Jim Driscoll in London. He hopes to be able to be ready for this match in March, his surgeon indicating that a quick mending of his fracture is probable. The proposed bout calls for twenty rounds at catch weights. A statement from Attell says:

"I feel, from what my surgeon says, that I'll be able to start work in time to go through with a match with Driscoll late in March. I am anxious to meet him on the terms suggested by the representatives of McIntosh and Britt, as I understand Olympia is really the center of the boxing game abroad and good money is assured a man who can win."

In speaking about the manner in which he sustained his injuries, Attell said:

"Kilbane threw me down and I landed on my right shoulder, dislocating it. While lying helpless with my left elbow on the floor and my hand half covering my side, Kilbane fell on me, placing his knee on my left arm between the wrist and elbow in such a way as to fracture a small bone above the elbow joint."

**FIRST DISTRICT COURT
CONVENES AT LOGAN**
Logan, Feb. 2.—The First district court convened yesterday for its February term. Arguments in the appeal of the case of the state against Paul Hansen, convicted of a statutory crime at the last session, were heard and affidavits filed by the prosecution and defense. The case was finally set for February 25. The case of Joseph Newbold et al. against the Hobbs Music company was dismissed with consent of both parties. The case of the Central Pacific railway against D. P. Tarney was passed for the term. The case of J. A. Anderson against R. P. Murray and William Murray, and Angus R. Hovey against Smart Land and Livestock company were continued for the term.
